

Byron & Becky Gudino Isaiah 61 International

September 25, 2023

Dear Supporters, Friends, and Prayer Partners,

Happy Friday! I hope that you all are well. This is Becky Gudino, one half of the duo that runs Isaiah 61 International in Ecuador, South America, and WA, USA. I am experimenting with something new for our ministry updates, quick emails with only one or two themes, so please let me know what you think by replying to this email!

I will be sending out updates more frequently (on Fridays), so if you subscribed by mistake or wish to unsubscribe, please just reply with the word unsubscribe. Life has all sorts of seasons so no hard feelings and we're glad you stopped by! If someone else should be receiving these emails, please let me know.

Today's update is about our office and some free resources available to you!

Quick Timeline:

As many of you know, Byron and I founded Isaiah 61 International in 2005. We began with orphan work, then low-income daycares, then working with elementary schools in remote locations. Around 2007, we grew into church planting and other types of social outreach like food, shoes, and school supplies. In 2017, Byron and I moved back to the States with our two children, Caleb and Maddie. In 2021, we realized our dream of opening a mission office and headquarters for Isaiah 61 International.

Attached is a picture of our office building in Aberdeen, WA, that I took today. Downstairs there are offices for Byron and I, along with a reception area and a future space for a recording/broadcasting studio for Byron's online work. Upstairs there are two ministry apartments, currently occupied by a single mom with six kids and a refugee couple.

Now on to the FREE RESOURCES! Not only are they free, but they are also amazing, in my completely unbiased opinion.

🤔👤 Byron has two types of resources on his YouTube channel (no seriously they are really good and you should check them out right now!) - 3 min videos for Spiritual Growth, and a Simple Spanish series. The easiest way to see everything is to click on the playlist option at the top of his YouTube page so that all the videos in each series are shown in order.
